

LUSTER PROTECTAN

lederplusmanufactures@lederplus.com

Combination of polypeptide condensates and polyhydroxy compound.

Appearance: Clear slightly viscous liquid

Activity %: 100

pH (10 % solution): 6.8

Use: In the bleaching of fur and double face

APPLICATION:

LUSTER PROTECTAN reduces considerably the deterioration of fur quality during bleaching.

LUSTER PROTECTAN improves the silkiness of the wool. **LUSTER PROTECTAN** improves shines of the wool when finished. **LUSTER PROTECTAN** provides a condition where the bleaching action is gradual, resulting in greater uniformity of bleach and more controlled bleaching conditions

LUSTER PROTECTAN is stable over the full pH range and may be used in any fur and double face processing bath where protection of hair and wool quality from harsh chemicals treatment is desired such as reduction bleaching, strong oxidation dyeing.
