

# PASTOSOL<sup>®</sup> LXP

Wetting agent, emulsifier

<b>Basis:</b>	Non-ionic / anionic soaking agent
<b>Appearance:</b>	Colourless liquid
<b>Active substance:</b>	Approx. 85%
<b>pH (10%)</b>	Approx. 7

## Properties:

**PASTOSOL LXP** is a wetting agent and biodegradable emulsifier.

**PASTOSOL LXP** is preferably used in the soaking of hides, which does not cause problems and consequently premature skin degreasing and/or fatty drums.

**PASTOSOL LXP** is free from nonyl-phenol compounds and low foam formation in comparison with common wetting agents.

## Application:

**PASTOSOL LXP** can be used anywhere in the production process of wet-blue, with advantage in deliming and bating operations.

The necessary quantity of **PASTOSOL LXP** depends on raw material and process step. The usual dosage is 0.2 – 0.5 %.

## Safety and storage:

When handling **PASTOSOL LXP**, normal safety precautions associated with the handling of chemicals should be observed. For more specific details please refer to our safety data sheets.

**PASTOSOL LXP** can be stored for up to 18 months, if temperatures below 5°C and above 40°C can be avoided.
