<b>Appearance:</b>	Green powder
<b>pH value (1 : 10):</b>	Approx. 3.5
<b>Chrome content:</b>	Approx. 7 % Cr <sub>2</sub> O <sub>3</sub>

## Properties:

TRUPOTAN BIO-EH is intended for the production of all types of leather.

TRUPOTAN BIO-EH produces leather with good softness and fine tight grain.

TRUPOTAN BIO-EH improves the buffing properties.

TRUPOTAN BIO-EH assists the dye levelling and dye intensity.

## Application:

TRUPOTAN BIO-EH is normally applied as part of the rechroming. We recommend to wash the wet blue before rechroming with a small quantity of formic acid.

TRUPOTAN BIO-EH is very suitable for the rechroming of sheepskin clothing leather and upholstery leather, producing a very soft leather with a remarkable fine tight grain.

## Safety and storage:

When handling **TRUPOTAN BIO-EH**, normal safety precautions associated with the handling of chemicals should be observed. For more specific details please refer to our safety data sheets. The product should be stored in a dry, cool place.
